5 sporty styles made of breathable polyester fabric with Cool-DRI™ technology. Moisture is wicked away from the skin and transferred to the outside surface of the garment. This greatly improves evaporation and speeds up drying, creating a comfortable and superior wearing experience, especially during activity.

- Cool-DRI™ technology
- Breathable
- Moisture-wicking
- Quick dry laundering
- Non-iron wash-and-wear
- Stain repellent
- Anti-static
- Tagless® - no label!

NEW!
in 2010

Moisture-wicking sportswear you'll count on time after time!

NEW!

Tagless® by Hanes

- Tagless® - no label!
- Superior fit
- 100% ComfortSoft™ material for a soft and smooth feel
- Perfectly printable surface
- Elegant design in every detail

Timeless styles for the whole family, through all ages. The special ComfortSoft™ material gives a perfectly soft and smooth feel for maximum wearing pleasure. The softness is accomplished by single-enzyme washing before bleaching/dyeing. Enzymes are proteins produced by living organisms. That's why enzyme washing is so ecologically friendly as the enzymes biodegrade instead of lingering in the water supply.

All products are tagless, for a fresh design and great comfort without scratchy neck labels. The design is well-considered: The collar is perfectly stretchable and keeps its shape, wash after wash - thanks to the 1x1 rib fabric with elastane. Single needle top stitching at the collar gives a modern and refined look.

The Tagless® collection combines superior fit, fabric and design with the guarantee of great choice, excellent quality, reliable service & rapid availability. Hanes is known for.

TAGLESS® ORGANIC

10 - 11

It's so easy being green...

We are committed to do our part in keeping the world a healthy and safe place worth living in. Environmental issues are becoming increasingly important nowadays. People ask for products produced with respect for our environment. We are obliged to give our customers the right choice: products made of certified organic cotton.

Organic cotton is grown using methods and materials that are ecological, economical, and socially sustainable and have the lowest impact possible on the environment. Organic agriculture prohibits the use of toxic and persistent chemical pesticides and fertilizers, as well as genetically modified organisms.

In order to maintain the consumers' trust in the term "organic", third-party certification organizations verify that organic producers use only methods and materials allowed in organic production. Hanes organic cotton is certified by OE (Organic Exchange, www.organicexchange.org). The OE 100 standard for organic textiles covers the purchase, handling and use of 100% certified organic cotton fiber in yarns, fabrics and finished goods. 95% or more of the fibre content of the products - excluding non-textile accessories - must be of certified organic origin in order to be allowed to call a product organic.

It is our responsibility to ensure that consumers can trust the safety of our products. To earn this trust, we strictly monitor the quality of our supply chain to ensure that the products we sell meet all government safety and quality standards, as well as our own. All our garments and accessories comply with the regulations of Oeko-Tex Standard 100. The Oeko-Tex system (www.oeko-tex.com) guarantees that all tested and certified textile products are free from harmful substances that may be injurious to human health. All regulations are considered extremely important and strictly enforced by Hanesbrands.

NEW!

TAGLESS® ORGANIC

We strive to be an ethical and responsible organization in every country throughout the world. We wish to promote the welfare not only of our customers, but of any life we touch in the countries and communities in which we operate. As a socially responsible citizen, Hanesbrands complies with all applicable laws and regulations, treats all employees fairly, with dignity and respect, and is committed to their health and safety.

Hanesbrands recently joined Fair Labor Association (FLA), embracing their standards and those of the Worldwide Responsible Accreditation Program (WRAP).

FLA (www.fairlabor.org) works with industry, civil society organizations and colleges and universities to protect workers' rights and improve working conditions in factories around the world. Hanesbrands conducts business with those suppliers only who share the corporation's commitment to its high standards of business ethics.

WRAP (www.wrapapparel.org) is an independent, non-profit organization which certifies and monitors lawful, humane and ethical manufacturing throughout the world. Their standards include, among others, the prohibition of child labour, prohibition of harassment and abuse, as well as regulations concerning hours of work and health and safety. Our extensive corporate social responsibility efforts and the resources we put behind them have made Hanesbrands a leader in doing business around the world in a highly ethical and socially responsible manner.

TAGLESS[®]
SPORTS
by Hanes[®]

TAGLESS[®] SPORTS

The Hanes legend began in 1901 in Winston-Salem, North Carolina, USA, when John Wesley Hanes created the first Hanes T-shirt. Today, the Hanes legend continues with a complete and exciting casual wear collection of garments in the pure American tradition, offering high quality and comfort.

Hanes' History

1901 John Wesley Hanes introduced new two-piece underwear, a radical departure from the traditional one-piece union suit that was popular at that time. The American T-shirt was born!

1970ies Executives at Hanes Knitting discovered that their white underwear products were being screenprinted and worn as outerwear. Keith Alms of Hanes Knitwear believed there was a viable business in selling white underwear T-shirts to screenprinters.

1975 Hanes introduces a heavier-weight T-shirt, called the Hanes Beefy-T®, specifically for the screenprint industry. Later that same year, Hanes develops the "screenprinter fold" eliminating the additional cost and handling of individual packaging.

1980 Hanes Printables becomes a separate division of Hanes Knitwear dedicated to distributing imprintable T-shirts and other apparel.

1982 Hanes starts its business in Europe with a European collection.

1990 Hanes starts printables business in Europe and very fast becomes a big and impressive brand in promotional textile market.

1996 Hanes sponsors clothing for about 70.000 voluntary helpers at the Olympic Games in Atlanta.

2001 Celebration of 100 Years of Hanes.

2004 Transformation from unisex collection to separate Hanes collections for men and women has revolutionary impact in the market.

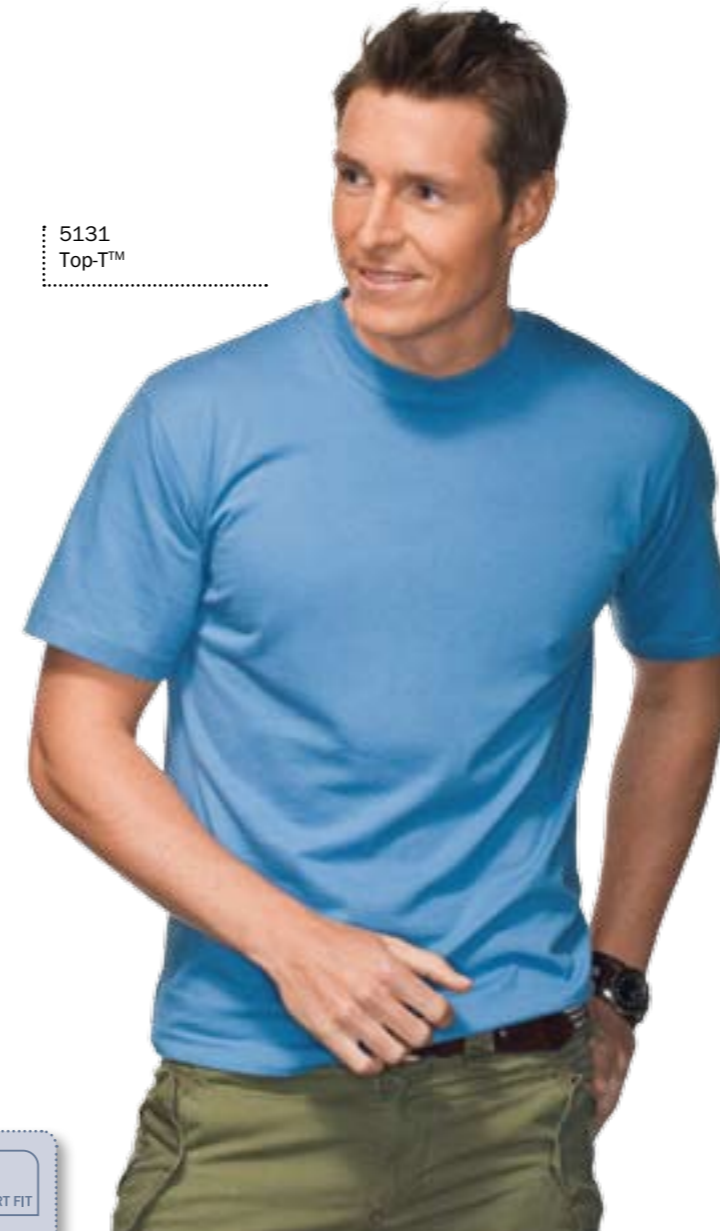

2010 Hanes goes Tagless®! Hanes also introduces organic T-shirts!

G136
Top Polo™ Long Sleeve

Since 1933, the polo shirt has grown so popular that it has become one of the standard categories of clothing. During the 1990s, the polo shirt became the standard informal business attire. It is a common element of a uniform where T-shirts are not acceptable. It is also a favoured shirt for those working outside due to its ruggedness – thanks to the tightly woven cotton piqué fabric.

1x1 rib
Rib knit is a textured double-knit fabric that has vertical ridges (called ribs) in the fabric and is highly stretchy in the crosswise direction. The width of each rib is the same as the width between each rib. This helps the garment retain its elasticity, creating a snug fit with great shape retention. A 1x1 rib has one rib up and one down.

Hanes all you need. *Every day*

The PEFC Council (Programme for the Endorsement of Forest Certification schemes) is an independent, non-profit, non-governmental organization, founded in 1999 which promotes sustainably managed forests through independent third party certification. The PEFC provides an assurance mechanism to purchasers of wood and paper products that they are promoting the sustainable management of forests.

Technical changes are possible, as products are being continuously improved. All weight indications in this catalogue are for coloured fabric and are subject to standard tolerances. The colour printed on paper is a guide only and may not perfectly reflect the true colour of the fabric.

* except the styles P160 & P170
